

SEASONAL SERVICES CHART

Throughout the year it is important to hit seasonal services at just the right time. Annual maintenance and routine upkeep will not only keep your outdoor environment looking great, but it will also improve the longevity of your investment.

By using our services chart you can quickly see the best times during the year for each of our core Lawn Care, Tree Care, and Pest Control services. Of course, if you have any questions do not hesitate to call. We are here for you!

LAWN CARE

For our Lawn Care we use the highest quality granular fertilizer which results in a thicker and greener lawn than any other company can provide. On top of that, our liquid weed control process allows us to control all broadleaf weeds (dandelions, clover, thistle) and the hard to kill (creeping charlie, violets, etc.).

TREE CARE

Our Tree Care staff includes 5 ISA Certified Arborists, so when we recommend a solution you can have confidence that it is the right solution for your trees. We offer numerous tree care services, and have the capability to handle the smallest of jobs, to large crane jobs required to lift trees over houses. Warner's is truly the only call you need to make for all things tree care.

PEST CONTROL

Warner's staffs 5 Certified Pest Control Technicians with a combined 50+ years of experience. We believe in an IPM (Integrated Pest Management) approach to pest control. This means we look not only at the current problem pest on your property, but why that pest is there, and what it will take to remove that pest, and also keep it away in the future.

WARNER'S OUTDOOR SOLUTIONS

Warner's Outdoor Solutions has been providing the Twin Cities metro area with a wide variety of lawn care, tree care, and landscape design and build services for more than 20 years. Serving both residential and commercial properties our trained professionals work hard to get the job done right the first time. With every service from Warner's you get:
